

SECUNORM 500

UNMISTAKABLY PROFI. PERFECTLY REINVENTED.

NEW

THE SAFER WAY TO CUT.

**martor**

# SECUNORM 500

NO. 50000410

Original size

#### Ergonomic handle

The excellent ergonomics can be felt all over the SECUNORM 500, for example in the newly shaped handle which fits comfortably into the hand. Or in details such as the nicely rounded knife end or the non-slip soft grip on the slider.

#### Abrasion resistant

The robust aluminium handle is designed for the most demanding and frequent cutting tasks. Like its popular predecessor, it is a tough all-rounder capable of taking on any cutting challenge.

#### Double-sided slider

With the predecessor, the SECUNORM PROFI, there were both left and right handed models. With the modern successor, anyone can cut effectively – with the ability to change hands when the task requires it.

#### Tool-less blade change

Blade changing without tools. The SECUNORM 500 comes with an intuitively operated blade change button. Press once to remove the blade carrier with its securely held blade.

#### Blade changing made easy

The blade cover remains in the required position when opened. The blade is then easy to access and is removed using the bladeless edge, minimising the risk of injury.

## The safety knife. With trapezoid blade.

Over 40 years ago the SECUNORM PROFI set standards in safety, robustness and ergonomics. Its successor goes several steps further. For example, the new aluminium handle significantly improves handling and makes cutting easier, the new slider can be operated from both sides and the blade change has been made so much simpler. Apart from these improvements, the proven automatic blade retraction will continue to protect you from cutting injuries.

### Application

### Safety technology

#### Automatic blade retraction – a high degree of safety

The automatic blade retraction of the SECUNORM 500 guarantees a high degree of safety from cut injuries. As soon as you have started to cut, take your thumb off the slider. Then the blade will retract into the handle immediately after leaving the material being cut.

### PRODUCT FEATURES

#### Technical features

 High safety	 Safer blade change (with magnet)
 Very abrasion resistant	 Very ergonomic
 2-cutting edge blade	 Cutting depth
 Ceramic blade insertable	 Soft grip
 For right and left handers	 Lanyard hole

#### Main cutting materials

 Cardboard: up to 3-ply	 Wrapping, stretch and shrink foil
 Plastic strapping band	 Tape
 Bagged goods	 Layers of foil or paper

#### Installed blade

#### Optional blade

	<b>NO. 5233</b> 0.63 mm, 1-sided ground-edge
	<b>NO. 610</b> 0.63 mm, stainless
	<b>NO. 852</b> 0.63 mm, stainless, TiN-coated
	<b>NO. 65232</b> 0.63 mm, rounded blade tips, deep-edged
	<b>NO. 65232C</b> 0.65 mm, ceramic, rounded blade tips, deep-edged
	<b>NO. 56</b> 0.63 mm
	<b>NO. 5634</b> 0.63 mm, rounded blade tips

#### Certificates and awards

# THE PERFECT FIT FOR ALL. DOES THE PERFECT JOB.

## SECUNORM 500

- › For high cutting frequencies
- › Ergonomic handle for left and right handers
- › Very abrasion proof thanks to the aluminium
- › Automatic blade retraction
- › GS-certified for approved safety
